ELECTRO FREEZE ANNOUNCES RELOCATION TO SUPPORT GROWING CUSTOMER DEMAND

EAST MOLINE, Ill. (December 22, 2025) – Electro Freeze®, a Welbilt® company and a global leader in frozen treat machine innovation and manufacturing, announced its intent to relocate its operations from East Moline, Ill., to a new facility in Davenport, Iowa. This move represents the company's commitment to growth, innovation and community partnership.

The facility, located at 8440 N. Zenith Ave, will significantly increase the company's manufacturing and office space. The relocation will more than double its production capacity, allowing Electro Freeze to meet rising customer demand for its innovative products and services. The relocation will also support the expansion of customer service, technical service and engineering facilities.

Electro Freeze has enjoyed being a part of the East Moline community since 1945. The company's legacy of innovation in the frozen treat industry has driven continuous expansion. Located 17 miles from its current location, the new facility enables Electro Freeze to continue to support its community, customers and existing employees.

"Relocating to Davenport allows us to operate within a single manufacturing facility while expanding our operational footprint," says Victoria Campbell, president of Electro Freeze. "This opportunity positions us to better serve our customers, develop new products, and continue our expansion into the global market. This is a strategic investment for the future growth of Electro Freeze."

Electro Freeze remains dedicated to delivering the same high-quality equipment and services, with minimal disruption during the transition. All contact information, including phone numbers and email addresses, will remain unchanged.

About H.C. Duke & Son, LLC. / Electro Freeze

Since manufacturing its first soft-serve ice cream machine in 1929, Electro Freeze, a division of H.C. Duke & Son headquartered in East Moline, Ill., has become a leader in the world of frozen treat machines. Electro Freeze machines are highly regarded in the American and world markets by both independent operators and large chain accounts. Electro Freeze manufactures a wide range of machines including soft serve, yogurt, shake, slush, cocktail, and batch machines.
